

FREE FAC WEBINAR

Leadership in the COVID World Today & Tomorrow

Learn from airport leaders about how they have continued to demonstrate and build strong leadership capabilities during the pandemic, and what plans are being made for the future. Representatives from several of Florida's airports will describe actions and plans, and provide an opportunity for questions and answers.

The panel will address leadership challenges they have faced as we have navigated our new "normal" during the uncertain times of COVID as well as lessons learned and plans for the future as we transition from a remote work environment to in-office. In doing so, the panel intends to raise awareness about leadership challenges and how they can be overcome, and especially what plans can be created going forward.
